EDUCATION

Bachelor of Engineering in Computer Science (CGPA: 7.3)   2020 – 2024 | Bengaluru, Karnataka
Global Academy of Technology

Pre-University (72%)   2018 – 2020 | Bengaluru, Karnataka
Vidya Mandir IND. Pre-University College

PROFESSIONAL EXPERIENCE

Key Motor Ventures Private Ltd.   Sep 2024 – present
EDP Executive - Intern
- Managed and optimized the dealership's Enterprise Resource Planning (ERP) system to centralize data and improve operational efficiency.
- Coordinated the integration and management of the dealership's Database Management System (DMS), streamlining customer and vehicle data for better accessibility.
- Utilized advanced analytics tools to generate insights from sales, inventory, and service data, supporting strategic decision-making.

Techciti Technology   Oct 2023 – Dec 2023
Front-end developer - Intern
- Developed a web-based platform for accurately forecasting airfare prices by accurately predicting airline ticket prices in real-time, contributing to improved decision-making and customer satisfaction.
- Utilized machine learning algorithms to predict airfare prices based on various input features. Skills-Python, Django, Html, CSS, JavaScript.

PROJECTS

Categorization of Plant Leaf Diseases Using CNN
- Developed a convolutional neural network (CNN) model to accurately categorize various plant leaf diseases.
- The system processes leaf images to detect and classify diseases, aiding in early diagnosis and treatment.
- Enhanced the precision and recall of the model through extensive training and validation using a large dataset of labeled leaf images.

Movie Finder. 🔗
- Developed a movie finder web app using HTML, CSS, and JavaScript.
- Added Features like search, wishlists, and user authentication.

Estate website 🔗
- Developed a dynamic full-stack house listing website using HTML, CSS, and JavaScript for the frontend and MongoDB for database management, providing seamless property search and filtering functionality.
- Implemented a responsive user interface ensuring compatibility across devices.
- Integrated MongoDB for backend data storage.

SKILLS

Programming Languages: Python, C, JavaScript, HTML, CSS
Database Management: MySQL, DBMS
Data Analytics & Tools: Tableau, Power BI, MS Excel, Data Visualization, Statistical Analysis
Technical Skills: Data Modeling, Machine Learning, Predictive Analytics
Soft Skills: Strong Communication, Team Management, Leadership, Adaptability, Problem Solving

CERTIFICATIONS

TechA Data Visualization using Tableau Developer Certification: Infosys Springboard
Introduction to Data Science: Cisco Networking Academy
Probability and Statistics using Python: Infosys Springboard
Agile Scrum Certification: Infosys Springboard
Building a Big Analytics Stack: Infosys Springboard
